Venue: GF's Godavari College of
Engineering, Jalgaon

ABOUT GFGCOE

Godavari College of Engineering (GCOE) was started by Godavari Foundation in 1999 to impart quality education in the field of Engineering & Technology. Godavari College of Engineering an Autonomous Institution is just one of the ventures of Godavari Foundation established by Dr. Ulhas Patil, a dedicated educationalist with a strong academic background. College is approved by AICTE, New Delhi; recognized by Govt. of Maharashtra and affiliated to Dr. Babasaheb Ambedkar Technological University, Lonere (DBATU). The courses are conducted in the premises having well infrastructure, Computer Labs, Conference halls, Library and other amenities. A Core team of experienced and qualified faculty bears the responsibility to impart knowledge to aspiring students in GFGCOE. A right blend of Industrialists and Academia from various other colleges, come to professionally train our students. Interaction with eminent personalities in their respective field is a continuous activity at the GFGCOE. In addition to giving them value-added skills, College provides the students with a solid foundation base to strengthen their engineering practical knowledge.

We believe that teaching and learning is a shared responsibility between faculty and students. Enhancing student learning through innovative instructional methods so that to increase their curiosity for exploring concepts. Providing students with the tools to make them become life-long learners.

GODAVARIHACKATHON 1.0 HIGHLIGHTS:

SMART CITY

HEALTHCARE

AGRICULTURE

EDUCATION

DESCRIPTION OF DOMAINS:

SMART CITY

Focuses on data analytics, and automation to improve urban infrastructure, transportation, energy management, waste handling, and citizen services for sustainable and efficient living.

HEALTHCARE

Involves developing technology-driven solutions for better diagnosis, patient monitoring, telemedicine, health data management, and improving accessibility and affordability of medical services.

AGRICULTURE

Centres on smart farming techniques using AI, and data analytics to enhance crop yield, optimize resource usage (water, fertilizers), and support precision agriculture and supply chain efficiency.

EDUCATION

Focuses on developing innovative digital solutions to enhance learning experiences, such as e-learning platforms, personalized learning using AI, virtual classrooms, skill-based training systems, and tools for improving accessibility, engagement, and educational outcomes.

EVENT FORMAT & LOGISTICS

- Participants are required to complete check-in at least two hours before the event begins.
- Outstation participants may arrive one day prior, with prior approval from the organizing committee.
- Meals and accommodation will be provided free of cost by GF's GCOE, Jalgaon.
- The hackathon will follow a structured timeline, including mentorship, coding sessions, and final presentations.

RULES:

1. All participants must complete registration through Google form link before the deadline.
2. A team must consist of a minimum of two (2) and a maximum of four (4) members, all of whom should be enrolled in a B.Tech program.
3. Changes to team members are not permitted after registration.
4. A student can be part of only one team for the hackathon.
5. Projects must strictly align with the provided themes or problem statements.
6. Teams will be shortlisted based on submitted profiles and an idea abstract for screening only.
7. Participants must ensure that their submission does not violate the intellectual property rights of any third party—including copyrights, patents, trademarks, or privacy laws.
8. External support for conceptualisation, design, and execution is not allowed and will lead to disqualification.
9. Plagiarism or use of pre-built projects not created during the hackathon will result in disqualification.
10. Each team must present their project to the judging panel as per the given guidelines.
11. Judge's and organizer's decisions regarding evaluation, rules, and outcomes are final and binding.

JUDGING CRITERIA

- **Creativity & Novelty:** Assesses originality and innovative problem-solving.
- **Technical Quality:** Evaluates code standards, system design, and technology usage.
- **Relevance & Impact:** Measures real-world applicability and potential impact.
- **Performance & Viability:** Reviews functionality, scalability, and feasibility.
- **Presentation & Teamwork:** Assesses clarity of presentation and team coordination.
