Program on “World Heart Day”

Objectives	1) Promote preventive actions that individuals can take to reduce their risk of heart disease and stroke. 2) Encourage a global shift towards heart-healthy living through education, community events, and advocacy. 3) Raise global awareness about cardiovascular diseases (CVDs), including heart disease and stroke, which are the world's leading cause of death.
Benefits in terms of learning/skill/knowledge development	Knowledge Development: Risk factors (hypertension, cholesterol, etc.), symptom recognition (heart attack, stroke), and preventive principles (diet, exercise). Skill Development: CPR training, healthy cooking/nutrition planning, stress management techniques, and self-monitoring health indicators. Behavioral & Advocacy: Motivation for check-ups, community engagement, and advocating for public health policies.
Program Coordinator (S)	Prof. Velchand Hole
Start Date:29/09/2025 End Date: 29/09/2025	Time: 3.00 pm
Total Duration of Activity in Hrs.	1 Hrs.
Schedule:	Welcome, Speech, Vote of Thanks
Mode of Conduct:	Offline
Speaker:	Topic: World Heart Day
Speaker Profile:	Dr.Syed Zeeshan, Sr.DM Cardiology,DUPMC,Jalgaon
Key Learning and Take-Always:	Controllable Risk Factors: The most critical take-away is the understanding that up to 80% of premature CVD deaths are preventable through lifestyle changes. Individuals learn to

	identify their personal risks related to smoking, poor diet, physical inactivity, high blood pressure, and high cholesterol. Symptom Recognition: A vital learning is the immediate recognition of heart attack and stroke warning signs (e.g., chest pain, shortness of breath, facial drooping), which is essential for timely emergency intervention. Nutrition Application: Learning modules focus on the skill of preparing heart-healthy meals by understanding food labels and prioritizing low-sodium, low-sugar, whole-food options.
